Risk

AMC ALTERNATIVE FUND -BCV DIAPASON Commodity Fund, a fund incorporated under Swiss law with special risks, is an umbrella fund in which the sub-funds are invested in underlying alternative funds that employ investment techniques where the risks involved cannot be compared with those associated with funds invested in traditional securities.

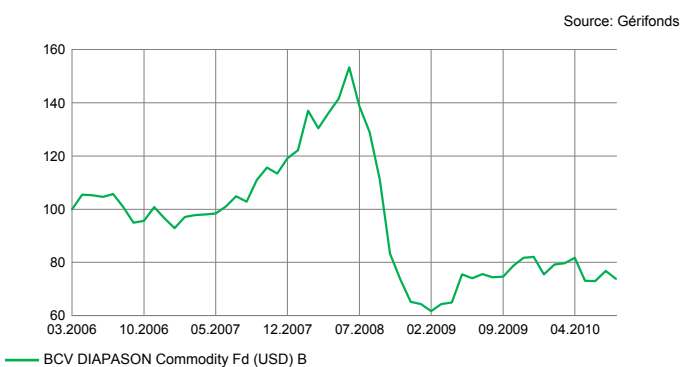

In order to mitigate the risk of such losses being incurred, the fund's mutual fund company undertakes a rigorous due-diligence procedure for choosing and monitoring underlying funds and fund managers as well as diversifying the investment strategies pursued. These risks are explained in detail in the prospectus.

Suitable investment volume: CHF 5m - CHF 30m

Objective of the BCV DIAPASON Commodity Fund (USD):
The objective is to achieve long-term growth and controlled volatility, geared towards movements in the Diapason Commodity Index TR (DCI TR USD) and the selection of underlying funds in the commodities and raw materials sector.
