PIGUET STRATEGIES

Report on activities of the Board of Directors

The month of March 2020 will undoubtedly be remembered. Indeed, it is hard to imagine that the viral epidemic that struck central China at the beginning of the year would spread so rapidly across the entire planet. The appearance of the Coronavirus in Europe in the second half of February caused a brutal awakening of the financial markets, which had until then been left with nothing. The exponential spread of the virus then spread to the markets. It took only a few weeks for the health crisis to turn into an economic crisis. On the other hand, there was no shortage of good news at the end of 2020, which was particularly hectic to allow the upward momentum in risky assets to continue. The arrival of several vaccines effective against Covid-19 was the trigger for the market surge, allowing investors to project themselves beyond the pandemic and the recent upsurge in infections around the world. In addition, the outcome of the US presidential elections was welcomed by investors who were relieved by the decline in political risk and the end of Donald Trump's chaotic governance. Finally, across the Channel, after lengthy negotiations, a trade agreement was narrowly reached to seal the United Kingdom's final exit from the European Union. The last days of the year saw the approval in extremis of a massive stimulus package that should support the U.S. economy until the vaccination campaign relieves the country's pressure. On the other hand in Europe, the stimulus fund and the European budget are now ready to be deployed following the withdrawal of the veto by Poland and Hungary. The ECB will now increase its pandemic emergency asset buyback program by 500 billion euros and extend it until March 2022. This is an important signal of a new dynamic within the European Union and a strengthened Franco-German axis.

The share class C in USD of the Low Volatility Strategy ended the year up 8%.

We started the year by simplifying the portfolio and concentrating on a smaller number of positions. We did decrease the following strategies: macro, M&A arbitrage and equity market-neutral. This move took place in the first quarter and allowed us to reposition quickly after the pandemic hit, seizing opportunities that we saw arising. Our main moves have been to increase the exposure to more directional strategies, both in credit and equities, which were well timed. We also increased exposure to volatility managers who benefited from a very supportive environment. Finally, we have been using ETF actively during the year to adjust the directional exposure of the portfolio when we saw oversold situation that we wanted to benefit from.

The best contribution for the year logically came from the long/short equity managers, followed by multi-strategy managers who saw a lot of opportunities due to the spike in volatility. The only negative contribution came from systematic, event-driven and distressed managers.

Luxembourg, 11th March 2021

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Opinion

We have audited the financial statements of Piguet Strategies (the "Fund"), which comprise the statement of net assets and the statement of investments and other net assets as at 31 December 2020, the statement of operations and statement of changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Piguet Strategies as at 31 December 2020 and of the results of its operations and changes in its net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the audit of the financial statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the réviseur d'entreprises agréé for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

PIGUET STRATEGIES

Notes to the financial statements

as at 31st December 2020

Note 1 - General information

PIGUET STRATEGIES (the "Fund") is an investment company qualified as a *Société d'Investissement à Capital Variable* ("SICAV") under the laws of the Grand-Duchy of Luxembourg. The Fund was incorporated on 26th November 1997 for an unlimited period of time.

The Fund is registered pursuant to Part II of the Luxembourg amended law of 17th December 2010 relating to undertakings for collective investment and the law of 10th August 1915 on commercial companies, and characterises as an externally managed alternative investment fund within the meaning of the Luxembourg law of 12th July 2013 on alternative investment fund managers (AIFM Law).

The prospectus and the articles of incorporation as well as the annual and semi-annual reports may be obtained free of charge at the registered office of the Fund, of the Management Company and from the Depositary.

Note 2 - Significant accounting and valuation policies

a) Presentation of the financial statements

The financial statements of the Fund are prepared in accordance with the Luxembourg legal and regulatory requirements concerning undertakings for collective investment and with generally accepted accounting principles in Luxembourg. The financial statements of the Fund have been prepared on a going concern basis.

b) Valuation of assets

The calculation is made on the basis of the last available closing prices at the date of the financial statements or the last available price at the date of the financial statements.

The value of all portfolio securities which are listed on an official stock exchange or traded on any other regulated market, are valued at the last available price on the principal market on which such securities are traded, as furnished by a pricing service approved by the Board of Directors of the Fund. If such prices are not representative of the fair value, such securities as well as other permitted assets, including securities which are listed on a stock exchange or traded on a regulated market, will be valued at a fair value at which it is expected that they may be resold, as determined in good faith by and under the direction of the Board of Directors of the Fund.

The securities which are not quoted or dealt in on any regulated market, are valued at the last available price, unless such price is not representative of their true value; in this case, they will be valued at a fair value at which it is expected that they may be resold, as determined in good faith by and under the direction of the Board of Directors of the Fund.

The liquidating value of futures or options contracts traded on exchanges or on other regulated markets are based upon the last available settlement prices of these contracts on exchanges and regulated markets on which the particular futures, forward or options contracts are traded by the Fund; provided that if a futures, forward or options contract could not be liquidated on the day with respect to which the assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors of the Fund may deem fair and reasonable.

The liquidating value of futures, forward or options contracts not traded on exchanges or on other regulated markets shall mean their net liquidating value determined, pursuant to the policies established by the Board of Directors of the Fund, on a basis consistently applied for each different variety of contracts.

The value of investment funds is based on the last available prices of the units or shares of such investment funds, however, if such prices are not available within such period of time starting from the Valuation Day, as determined in good faith by the Board of Directors of the Fund from time to time, the Fund may use preliminary prices representative of the fair value of the investment funds.

c) Acquisition cost of securities in the portfolio

The acquisition cost of the securities held by the Sub-Fund that are denominated in currencies other than the reference currency of the Sub-Fund is converted into this currency at the exchange rates prevailing on the date of purchase.

d) Realised gain/(loss) on sales of securities

The realised gains and losses on sales of securities are calculated on the basis of the average acquisition cost and are disclosed in the statement of operations.

PIGUET STRATEGIES

Notes to the financial statements (continued)

as at 31st December 2020

e) Investment income

Dividend income is recorded at the ex-date, net of any withholding tax.

Interest income accrued and payable is recorded, net of any withholding tax.

f) Valuation of forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward market rates for the remaining period from valuation date to the maturity of the contracts. Unrealised gains and losses are disclosed in the statement of net assets. Realised gains and losses, appreciation and depreciation of unrealised results are disclosed in the statement of operations.

g) Conversion of foreign currencies

Cash at banks, bank overdrafts, other net assets, liabilities and the market value of the securities portfolio expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the financial statements. Income and expenses expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Realised gains or losses on foreign exchange are disclosed in the statement of operations.

h) Receivable / Payable on treasury transactions

The item "Receivable on treasury transactions" comprises maturities of time deposits, new loans or foreign exchange transactions not yet disclosed under the item "Cash at banks".

The item "Payable on treasury transactions" comprises new time deposits, maturities of loans or foreign exchange transactions not yet disclosed under the item "Cash at banks".

i) Transaction fees

Transaction costs disclosed under the item "Transaction fees" in the expenses of the statement of operations are mainly composed of broker fees incurred by the Fund and of fees relating to transactions paid to the Depositary as well as of transaction fees on financial instruments and derivatives.

Note 3 - Management fees

The Management Company is entitled to receive a management fee as follows:

Sub-Fund	Maximum rate p.a.	Effective rate p.a.
Piguet Strategies - Low Volatility	1.85%	until 25 million EUR: 1.80% from 25 million EUR to 150 million EUR: 1.67 % from 150 million EUR to 300 million EUR: 1.52 %

This management fee is payable monthly in arrears and is calculated on the basis of the average net assets of the Sub-Fund for the relevant month.

Based on this management fee, the Management Company bears the expenses due to the following parties:

- the portfolio management fee of 1.50 % which is paid on a monthly basis in arrears to the portfolio manager for the provision of portfolio management services,
- the depositary fees which are paid on a monthly basis in arrears for the provision of depositary and paying agent services, and
- the administrative fees which are paid monthly in arrears for the provision of central administration, accounting and transfer agency services.

Other fees as advisory, audit and general management and operational costs shall be charged to the Sub-Fund which incurred the expense or if unallocated in proportion to the net assets.

PIGUET STRATEGIES

Notes to the financial statements (continued)

as at 31st December 2020

Moreover, the Fund shall bear all costs generated by:

- external financial analysis and research costs; and
- regulatory and reporting requirements, such as securities valuation fees, costs related to cash flow, monitoring fees related to MIFID such as EMT files, fees related to the establishment of PRIIPS-EPT, etc.

In addition, the Directors of the Fund may be paid reasonable travelling, hotel and incidental expenses of their attending and returning from meetings of the Board of Directors or general meetings of shareholders. The fees and charges of the correspondent banks, clearing brokers and selling agents are paid out of the net assets of each Sub-Fund and will conform to common practice.

The Investment Manager may, from time to time, pay to selling agents or introducing brokers a portion of the fees it receives in respect of investors in the Fund introduced by such persons or firms.

Other investment funds, some of them affiliated with the Investment Manager or its agents, may invest in the Fund under terms whereby the Investment Manager may pay all or a portion of its fees to such funds.

Note 4 - Management fee retrocession

Management fee retrocessions received by the Fund and related to its investments in Undertakings for Collective Investments in Transferable Securities ("UCITS") or other Undertakings for Collective Investments ("UCIs") are disclosed under the "Other commissions received" in the statement of operations.

Note 5 - Subscription, redemption and conversion fees

A subscription charge of up to 3% of the Net Asset Value, payable to the selling agent, may be added to the Net Asset Value.

The selling agent may also charge a transaction fee of up to 2.5% of the Net Asset Value for the subscription of the shares.

No commission of redemption or conversion in favour of the Sub-Fund is applied.

Note 6 - Subscription duty ("*taxe d'abonnement*")

The Fund is governed by Luxembourg Law.

Pursuant to the legislation and regulations in force, the Fund is subject to an annual "*taxe d'abonnement*" of 0.05% which is payable quarterly and calculated on the basis of the net assets of the Sub-Fund on the last day of each quarter.

Pursuant to Article 175 (a) of the amended Law of 17th December 2010 the net assets invested in undertakings for collective investment already subject to the "*taxe d'abonnement*" are exempt from this tax.

Note 7 - Changes in investments

The changes in investments for the period in reference to the report are available upon request free of charge at the registered office of the Fund, of the Management Company and at the Depositary.

Note 8 - Advances for purchases of securities

This item relates to all subscriptions in underlying Funds for which the final confirmation of subscribed quantities has not yet been received by the Depositary as of the Net Asset Value calculation date of the Fund.

Note 9 - Prepaid subscriptions

Subscriptions received prior to the year-end are credited to the "Prepaid subscriptions" item in the statement of net assets account until the next subscription date.

PIGUET STRATEGIES

Notes to the financial statements (continued)

as at 31st December 2020

Note 10 - Equalisation

The Fund invests in some alternative investment hedge funds which use equalisation for the calculation of their performance fees. Equalisation is a method which is designed to ensure that not only the investment manager is paid the correct performance fee but also that the performance fees are fairly allocated between each investor in the Sub-Fund. Any provision for equalisation payments can be found in the statement of net assets account.

Note 11 - Forward foreign exchange contracts

					<u>756,784.44</u>

Note 12 - Event

Piguet Galland & Cie SA, 18, Rue de la Plaine, CH-1400 YVERDON-LES-BAINS, Switzerland, is no longer acting as representative of the Fund for Switzerland and responsible for payment service activities in Switzerland since 1st January 2020.

The Board of Directors recognizes that the spread of COVID-19 represents a significant challenge to society in general and, in addition to the significant health and social implications, has a significant negative impact on the economic environment and market conditions in which the Fund PIGUET STRATEGIES is evolving.

As of the date of this report, the Fund has not experienced any significant net redemptions, and the continuity of the activities of its management company, its central administrative agent and its depositary bank is assured.

With regard to the valuation of assets and liabilities as set forth in this annual financial report, the Board of Directors reasonably considers that the events related to COVID-19 do not require any ex-post adjustments to the said valuation. To date, neither the Fund nor its sub-fund have encountered any complications with respect to the fair valuation of the instruments held in the portfolio while no delays were identified in the calculation of the NAV. The underlying assets of the sub-fund are liquid and the risk of suspension of NAV calculation is very low.

PIGUET STRATEGIES

Notes to the financial statements (continued)

as at 31st December 2020

On this basis, the Board of Directors considers that there has been no incident affecting the ability of the Fund PIGUET STRATEGIES to operate. To date, the Fund continues to operate normally in accordance with its investment policy and prospectus.

However, it is premature, as of the date of this report, to make a specific assessment or quantification of the potential impact that the development of COVID-19 and the actions of government authorities in this regard may have on the Fund PIGUET STRATEGIES in the short, medium and long term due to the uncertainty of such potential impact.

The Board of Directors will continue to monitor the development of COVID-19 and the actions of government authorities in this regard and, in consultation and coordination with the Fund PIGUET STRATEGIES principal service providers, assess their impact on the Fund's net assets, operations and organization.

Note 13 - Subsequent events

The Board of Directors decided to change the name of the Sub-Fund from Piguet Strategies - Low Volatility to Piguet Strategies - Piguet Opportunity Fund. Furthermore, the Board of Directors decided to modify the investment policy and to review the articles of incorporation. The changes became effective and were approved by the shareholders following the extraordinary general meeting held on 25th January 2021.

PIGUET STRATEGIES

Additional information (unaudited)

as at 31st December 2020

1 - Leverage

The leverage is frequently controlled by the AIFM and must not exceed the following limits:

Sub-Fund	Leverage limit Gross method	Leverage limit Commitment method
Piguet Strategies - Low Volatility	415%	215%

The total amount of leverage calculated in accordance with the gross and commitment methods employed by the AIF, as at 31st December 2020 is as follows:

Sub-Fund	Leverage limit Gross method	Leverage limit Commitment method
Piguet Strategies - Low Volatility	285.90	101.89%

2 - Risk profiles

(a) Measures to assess the sensitivity of the AIF's portfolio to the most relevant risks to which the AIF is or could be exposed;

- **Piguet Strategies - Low Volatility:** This fund of hedge funds uses a broad range of strategies allowing to capture performance without exposing the Fund to a specific risk that could be related to a specific approach such as distressed debt or long/short equity. The liquidity risk can be significant for a fund of this type but the Fund is here monitored in terms of position to underlying funds exhibiting profiles of frequency/redemption notice that are less favourable than those of the Fund itself. The Fund can invest in hedge funds with a NAV frequency lower than monthly but the portfolio manager will nonetheless prefer to invest in weekly NAV funds. Leverage on some strategies generally associated with higher levels of leverage is monitored as the goal of the Fund is to keep a low volatility level. Concentration risk among events and strategies and a potential increase of the portfolio volatility can occur but is monitored. The Fund is not intended to invest directly in fixed-income securities but the use of some strategies could give exposure to credit risk. The use of such strategies is limited and monitored. Derivatives are allowed for hedging purposes only.
- The main measures to assess the significant risks of these funds are :
 - levels of leverage,
 - liquidity levels,
 - foreign currency exposure,
 - VaR levels (ex-post),
 - strategies weights,
 - credit exposure and modified duration,
 - main positions.

(b) Confirmation if the risks limits have been exceeded or are likely to be exceeded, and where these risk limits have been exceeded a description of the circumstances and, the remedial measures taken.

The AIFM confirms that the risk limits (leverage levels) have not been exceeded during the period under review.

3 - Risk management systems

There are several systems related to the measure of the relevant risks of the AIFs. A comprehensive set of measures is performed at least on a monthly basis by EFA risk management systems and is completed by any additional measure considered as of value added and assessed internally.

The analysis and the review of all risk measures are performed by the risk management function of the AIFM and all potential issues are reviewed, reported and solved.

4 - Performance

The past performance of the AIF are made on the website: www.gerifonds.lu.

PIGUET STRATEGIES

Additional information (unaudited) (continued)

as at 31st December 2020

5 - Significant changes

At the date of the financial statements there were no significant changes.

6 - Remuneration

The Alternative Investment Fund Manager has a remuneration policy in place as required by the Law of 12th July 2013 on Alternative Investment Fund Managers.

Information concerning remuneration policy is available at the registered office of the AIFM, 43, Boulevard Prince Henri L-1724 LUXEMBOURG.

The number of people covered by the remuneration policy as at 31st December 2020 is 12. The total remuneration of these individuals in relation to the Fund is:

Concerning AIFM:

Number of persons covered		8
Senior management *		8
The total remuneration paid during the year 2020 **	EUR	9.981,00
The total fixed remuneration paid during the year 2020 **	EUR	8.263,00
The total variable remuneration paid during the year 2020 **	EUR	1.718,00

Concerning Portfolio Manager :

Number of persons covered		4
Risk takers ***		2
The total remuneration paid during the year 2020 **	EUR	46.592,00
The total fixed remuneration paid during the year 2020 **	EUR	41.456,00
The total variable remuneration paid during the year 2020 **	EUR	5.135,00

N.B.:

* Amongst the senior management members, two of them also assume control functions (compliance officer for one and risk manager for the other).

** Remuneration was calculated on a pro rata basis.

*** Risk takers are the persons actually responsible for the Fund's portfolio management.

The details of remuneration policy are available on www.gerifonds.lu. Further information regarding the remuneration policy can be obtained directly at the office of GERIFONDS (Luxembourg) SA, 43 Boulevard Prince Henri, L-1724 LUXEMBOURG.

No irregularities were detected during the annual review. There have been no significant changes to the remuneration policy.

7 - Information concerning the transparency of securities financing transactions and of reuse of cash collateral (regulation EU 2015/2365, hereafter "SFTR")

During the reporting period, the Fund did not engage in transactions which are subject to the publication requirements of SFTR. Accordingly, no information concerning the transparency of securities financing transactions and of reuse of cash collateral should be reported.
